

Windmills: Book 1: Bearkdowns

A bear named Bear suffers from child abuse, chronic existential melancholia, and urban despair as he ponders upon things as Jeffrey Dahmer, Adam Sandler movies, and Ganesha in this stylized fictional autobio from nineteen-year old komikero Josel Nicolas. The entire 29-page book is written and drawn with youthful exuberance and verbosity and frenetic anxiety previously never seen anywhere in komixdom... An account of a brain slowly and surely going down the drain. Adam David, Philippines Free Press, January 10, 2009, Best Books of 2008.
