Pages: 120 (Illustrated Throughout In B/W and Color)ForewordChildrens minds are difficult to fathom. It contains new and colourful designs presented with a view to helping mothers in selecting a variety of designs for their childrens dress taking into account the tastes and choice of the young ones. Normally, it is the parents who make decisions regarding all matters pertaining to their children. This book provides ample guidance to mothers in preparing clourful and attractive clothes which their children will like. This book further explains through various diagrams and their verbal description how to embroider beautiful patterns in various types of stitches. Various methods of tracing the designs from the pages of this book onto the material have been given in this book. Clear instructions are given in the blending of colours for obtaining the desired shades. Thus fascinating and eye-catching embroidery can be done e
